

4. Door adjustments

Height adjustment

① Loosen fixation screw

② Adjust height by turning the height adjustment screw as shown above. A graduation is visibly on the side of the mounting plate to show height adjustment.

③ Re-tighten fixation screw firmly.

⚠ Ensure that the fixation is securely fastened.

⚠ Always loosen fixation screw before attempting to adjust the height. Failure to do so will damage the mounting plate.

⚠ Always adjust the height with a manual screwdriver. Never use an electrical one.

⚠ When adjusting the height, do not exceed the range shown on the graduation on the side of the mounting plate.

Horizontal adjustment

① Take of the door as shown below.

② Loosen the mounting plate installation screws.

③ Adjust mounting plate position as needed.

④ Tighten mounting plate installation screws.

⚠ Ensure that all screws are securely fastened.

⚠ Ensure that both mounting plates are moved similarly in order to keep the correct mounting pitch.

5. Cover installation

Clip the front and then the back of the cover. Make sure that the cover is securely attached. To remove, pull the back of the cover first.

6. Door removal

① Push the release lever.

② Lift the bottom of the door.

③ Slide the door upwards to unhook it.

EZS-ELAN PAT Installation instructions

Lapcon

Dear Customer:

The EZS-ELAN stay was designed and manufactured with Sugatsune utmost care in order to give you a high performance and smooth operation on a long-term basis. We ask you to follow these instructions for best possible results and carefree use throughout its lifetime.

Safety recommendations:

- Sugatsune recommends for the installation to be made by a professional carpenter or installer.
- The EZS-ELAN stay contains some very strong springs: for your own safety, do not fold the arm before it is securely attached to the door. Failure to observe this advice may lead to bodily injury.
- Do not disassemble the arm or body of the stay.
- Please use this stay only within the specifications shown on page 2.
- Standard temperature of use is 0 to 40°C.

Warranty:

- The EZS-ELAN stay was produced with a particular attention to its quality. Should you however experience any difficulty, please refer to your local supplier or the Sugatsune export department (export@sugatsune.co.jp).
- The liability of Sugatsune is limited to the replacement or repair of the stay itself. Sugatsune cannot accept any liability for damaged incurred while using this stay.
- Standard guaranty is for a one-year period from the date of shipment.

Parts list
