

LAMP® STAINLESS STEEL GRAVITY HINGE FOR GLASS DOORS

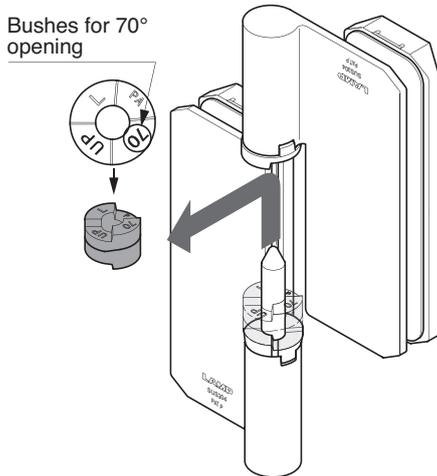

XL-GH05F-120 Self opening range (Bush) change method

For this product, a self closure range is set to approximately 70 degrees.

When you make this 20 degrees, please replace Bushes.

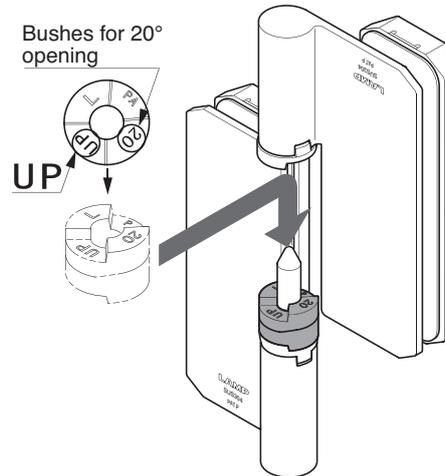

1 Pull out the bushes

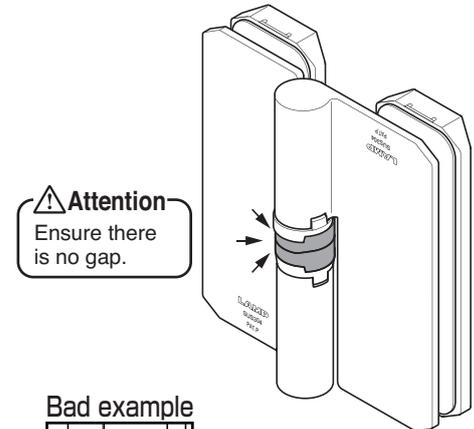

2 Insert bushes for 20° opening

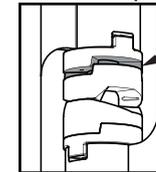

Insert in the direction as highlighted below

3 After the replacement

Bad example

Check the hinge assembly before hanging the door. If there is a gap in the bush assembly, please turn the bush 180° and ensure that there is no more gap.
